

Intradistrict Communication

DATE: July 29, 2022
TO: All School Principals
FROM: Administrators of Schools
SUBJECT: Reserved PTA and Activity Nights

In order to assist patrons who have children in more than one level of schooling, PTA meeting nights and other activity nights will be reserved on a yearly basis. The PTA boards of each school recognized that they would draw more members to their meetings if these dates were also the nights when schools traditionally held concerts, grade-level programs, or special activities. In that way, other levels would not schedule conflicting programs, concerts, or PTA meetings on the same night. If a school wanted to have an activity or program on a night reserved for other levels because of scheduling difficulties, as a courtesy, all feeder schools should be contacted and possible compromises reached. Oftentimes, communication among schools in a feeder system is best in resolving calendaring conflicts. There are some instances when high schools have no control over the dates selected for activities (i.e., those sponsored by the UHSAA, etc.).

This memo is a reminder for all administrators to be aware of these reserved nights when planning programs at your schools. Below you will find the dates reserved for this year.
