

You're invited to build something amazing in 1st grade!

We are excited to announce a new professional development series for the upcoming school year, specifically designed for 1st-grade teachers.

These courses will help you to meet the [quarterly literacy goals](#) and will be centered around the theme of building strong readers. Participating teachers will receive a copy of the mentor text, *Mighty, Mighty Construction Site* by Sherri Duskey Rinker, as well as other practical tools to use in their classrooms

Join us as we lay the foundation for student success and connect with other 1st-grade builders. Here is a preview of the blueprint for the 2026-2027 school year.

- Quarter 1: Laying the Foundation: August 5 or September 11
- Quarter 2: Building the Framework: November 6 or November 13
- Quarter 3 and 4: Final Inspection: January 22 or January 29

Sign up now for our first session at pd.jordandistrict.org. We look forward to building a fantastic year of learning with you.
