

Intradistrict Communication

DATE: November 21, 2019

TO: High School Principals

FROM: Shelley Nordick, Ph.D., Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: 2019 Graduation and Dropout Rates Available on Tableau

A new dashboard containing 2019 graduation and dropout rates at the district and school levels is now available in high school principal Tableau viewer accounts. Included in this dashboard is a breakdown of 2019 data by school and student group as well as a longitudinal look at graduation rates back to 2012.

Graduation and dropout rate data are embargoes until the State releases the data publicly some time during the first week of December. Until then, please do not share these data with anyone outside of your faculty.

High school principals may access this data by clicking on the Graduation Rates folder in the Explore menu in your Tableau account. Then click on Graduation-Dropout Rates Dashboard, 2012-2019.

Please contact Ben Jameson with any questions about this dashboard.
