

Intradistrict Communication

DATE: Thursday, February 14, 2019

TO: All Principals

FROM: Dr. Anthony Godfrey, Associate Superintendent
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: 2019 UEPC School Climate Survey Response Rate Links

Principals are encouraged to use the following links to monitor the response rates for the student, parent and faculty/staff UEPC School Climate Surveys.

As a reminder, all students second grade and up should have time scheduled during the school day to take the school climate survey. Depending on your technology configuration, some schools may need to schedule computer labs to help facilitate the student survey administration.

Principals should provide time during a faculty meeting as necessary for faculty and staff members to take the survey as well.

Finally, principals should notify parents of the option to take the survey via Skylerts, parent newsletters, social media, or by any other communication means available. Parents will likely need several reminders. In addition, it is recommended that schools provide computers and/or a survey link for parents to take the survey while attending spring parent conferences.
