

# Intradistrict Communication

DATE: Thursday, July 28, 2022

TO: Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching & Learning  
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: 2022 Acadience Math Dashboards

---

The 2022 Acadience Math results are now available in Tableau viewer accounts. Elementary school administrators may access the dashboards [here](#). Results are available at both the district and school level for both composite scores and measure scores. Composite proficiency and growth are also available. School administrators may also filter the data by student groups (economically disadvantaged, EL, race/ethnicity, and students with a disability). Finally, individual student and teacher data are available for BOY, MOY and EOY.

Please contact Ben Jameson in Evaluation, Research & Accountability with questions about these dashboards or Shannon Johnson with questions about the Acadience Math assessment.
