

Intradistrict Communication

DATE: Thursday, October 13, 2022

TO: Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: 2022 BOY Acadience Reading Dashboards in Tableau

Beginning of the year Acadience Reading data and results are available in school administrator Tableau Viewer accounts. Administrators may view aggregate student participation, benchmark proficiency, and measure proficiency by school and grade level over time (2016-present). In addition, school administrators may view individual student and teacher data for the fall of 2022. Demographic filters are also available to help school administrators drill down to the data they wish to see.

The following dashboards are available:

[School Acadience Reading Analysis, 2016-Present](#)

Explore > Acadience Reading & Early Literacy > School Acadience Reading Analysis, 2016-Present > 2-School Acadience Reading Analysis, 2016-Present

[2022-23 BOY Teacher and Student Level Data Dashboard](#)

Explore > Acadience Reading & Early Literacy > School Acadience Reading Analysis, 2016-Present > [School Name] 2022-23 BOY Student Level Data Dashboard

As a reminder, schools have at their disposal a Tableau Viewer account that teachers can access to see aggregate data only for the school and their grade level. No individual student or teacher data are available with this account. Please contact Ben Jameson in Evaluation, Research & Accountability for more information about this tool and to obtain login credentials.
