SUBJECT: Reminder: Comprehensive School Threat Assessment Guidelines (CSTAG) Workshop Dates

---

CSTAG training consists of two (2) training levels and both levels must be completed by all administrators and threat assessment team members. The CSTAG Level 2 workshop is for all who have completed the Level 1 training (the six (6) hour web-based training from Navigate360). This workshop will build upon your knowledge of threat assessment by providing practical application and implementation of the CSTAG process in your school.

The Level 2 workshop will:
1. Review CSTAG level 1
2. Focus on implementation and use of the threat assessment process
3. Focus on sustainable ways to use CSTAG in your school
4. Review and training on the decision tree
5. Review the CSTAG forms and best practices for documentation
6. Practice using real-world scenarios

If you have already completed level two (2), we are offering a new training opportunity, CSTAG level three (3)!
