

# Intradistrict Communication

DATE: Thursday, May 22, 2025

TO: All School Administrators

FROM: Carolyn Gough, Administrator of Teaching and Learning  
Ben Jameson, Director of Assessment, Research and Accountability

SUBJECT: 2025 WIDA ACCESS Results in Tableau

---

2025 WIDA ACCESS results are now in Tableau. Viewers may see language proficiency levels over time for the following categories:

- Overall Composite Score
- Composite Scores (Comprehension – listening and reading; Literacy = reading and writing; and Oral = listening and speaking)
- Subtest: Listening, Reading, Speaking and Writing

Viewers may also see growth target data over time based on the state's growth goals for each student as well as student participation over time on the WIDA ACCESS.

Included in the dashboard is a student list with historical WIDA ACCESS results going back to 2022. Viewers may filter results using a variety of demographic and assessment filters to create lists of students for support and intervention planning for the 2025-26 school year.

Viewers may access the WIDA ACCESS summary dashboard [here](#).

For questions about the WIDA ACCESS assessment and results or this summary dashboard, please contact Ben Jameson in Assessment, Research & Accountability.
