

Intradistrict Communication

DATE: Thursday, March 16, 2023

TO: Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: Acadience Math Tableau Dashboards Updated with MOY Results

The 2023 MOY Acadience Math results are now available in Tableau viewer accounts. Elementary school administrators may access the dashboards [here](#). Results are available at both the district and school level for both composite scores and measure scores. Composite proficiency and growth are also available. School administrators may also filter the data by student groups (economically disadvantaged, ML, race/ethnicity, and students with a disability). Finally, individual student and teacher data are available for BOY and MOY.

Please contact Ben Jameson in Evaluation, Research & Accountability with questions about these dashboards or the Acadience Math assessment.
