

Intradistrict Communication

DATE: Thursday, June 24, 2021

TO: Elementary School Administrators

FROM: Shelley Nordick, Ph.D., Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: Acadience Reading Dashboard and Data Analysis Protocol

Acadience Reading assessment data have been added to administrator Tableau Viewer Accounts. School administrators may view longitudinal data from 2015 through 2021 for the entire district as well as any elementary school. Dashboards include proficiency and growth (Pathways Achieved) data as well as grade level measure performance. In addition, for the 2020-21 school year, there is also a dashboard that analyzes performance based on form of instruction (in-person vs. online).

These dashboards may be found [here](#):

- Explore > Acadience Reading & Early Literacy > School Acadience Reading Analysis, 2015-2021 > **Acadience Reading Analysis, 2015-2021**

School administrators may also view student and teacher level data for their school.

Student and teacher level dashboards may be found [here](#):

- Explore > Acadience Reading & Early Literacy > School Acadience Reading Analysis, 2015-2021 > **[Your School Name] – 2021 Acadience Reading Student Level Data**

To help you make sense of and analyze your Acadience Reading assessment data in terms of core instruction and tier II interventions, a data analysis protocol has been included with this memo.

Please contact Ben Jameson in Evaluation, Research & Accountability with questions about the dashboards or data analysis protocol.
