

ADVANCED PLACEMENT UPDATES

Digital Exam Rollout Highlights

As [announced to the AP community](#), the AP Program is accelerating the transition to digital testing to ensure the continued security of AP Exams.

Students will take digital exams in the [Bluebook](#) app. AP coordinators and proctors will administer digital exams using the Test Day Toolkit web application. Paper exams in these subjects will only be available to students approved by the College Board to receive a paper exam for digital assessments.

For math, science, and economics exams that require graphing or symbolic notation, students will view free-response questions and prompts in Bluebook and write their answers in paper exam booklets.

All schools, including schools and test centers outside of the United States, must administer these 28 AP Exams digitally. Late-testing exams in these subjects, if offered by the school, are also in digital format. For the full list of exams going digital, hybrid, and staying paper-pencil, please visit our [main announcement page here](#).

Overview webinars will be held on Thursday, September 12th and Monday, September 15th. [You can register here](#).

Advanced Placement Exam Schedule for May 2025

Many schools have been requesting this information. Please see the exam schedule here: [AP 2025 Exam Schedule](#)
