Dear Kennedy Mickelson and Yuree Noh:

Your request to conduct a research project in the Jordan School District concerning "Youth Outlook on AI Survey" has been given district-level *conditional* approval by the District Research Review Committee according to the parameters of the study listed in your application.

The condition under which your project has been approved is:

- Parent Permission form must be signed by parent and turned in before a student can participate in the survey.

Although you have received Research Review Committee *conditional* approval, this decision does not obligate a district department or school to participate if circumstances or events are such that the research would create problems or would be overly burdensome. You will now need to contact All High School Administrators, to obtain their approval to conduct your study.

Please send a copy of your final findings, conclusions, and recommendations from the study to the Assessment, Research & Accountability Department. Thank you for your interest in conducting research in Jordan School District.

Sincerely,

Ben Jameson

Ben Jameson, Member
Research Review Committee
