

Common Sense Media Introduction -

Teacher Leader introduction - Training Meeting

October 17, 2018 ASB Auditorium

Session 1: 3:30 - 4:30 or Session 2: 4:45-5:45 (Choose One)

Common Sense Media is one of the major providers of digital citizenship training in the United States. They provide high-quality digital literacy and citizenship programs. In order to promote and support the safe and appropriate use of digital tools within Jordan School District, we are providing an introduction to Common Sense Media to interested schools. Schools choosing to participate will identify a Teacher Leader who will become a Common Sense Educator. That teacher leader will then promote the program within the school community by leading a team of teachers through certification. This program is funded by the Digital Teaching and Learning Grant.

Requirements

Common Sense Educator Teacher Leader

- Teacher Leader completes training
 - Enroll in Canvas course
 - JPLS Course Number:101349
