

# Intradistrict Communication

DATE: December 18, 2025

TO: All School Administrators

FROM: Michael Anderson, Associate Superintendent  
Travis Hamblin, Director of Student Services  
McKinley Withers, Health and Wellness

SUBJECT: Content Monitoring Over Winter Break

---

During the winter break, from December 20th until January 5th, content monitoring (BARK, iboss) and safety notifications (SafeUT) will have some temporary changes:

## **BARK & iboss Notifications:**

- Content monitoring (BARK) will not be checked while school is not in session.
- We will continue to receive imminent/urgent alerts and will work with administrators when *immediate* intervention is required.
- Notifications that are not considered emergencies or urgent will NOT be sent to school personnel until January 5th. This includes iboss and BARK notifications.

## **SafeUT alerts - After hours, holidays, and weekends**

SafeUT may still send text and email alerts after hours or during blackout periods (winter break) when they are deemed urgent. Most tips and alerts that are deemed non-urgent will be batched for 7 am, January 5, 2026.

When a text/email alert is received after school hours or on a weekend, it should be addressed as soon as reasonably possible. In most cases, SafeUT will call the District's on-call contact to obtain information immediately. When SafeUT contacts the after-hours staff member, it will be logged in the disposition notes in SafeUT for schools to address as soon as possible. **SafeUT may, on occasion, send urgent alerts to schools after hours or during blackout periods without contacting the on-call staff. These alerts are managed by the school.**
