

# Intradistrict Communication

DATE: Thursday, March 10, 2022

TO: All Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching & Learning  
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: School LAND Trust/TSSA Planning – Helpful Assessment Data

---

With the School LAND Trust and TSSA Plans due on March 25<sup>th</sup>, principals have been encouraged to create data-informed goals and supports. The following Tableau dashboards may be useful as principals set those goals:

## **Elementary Schools:**

- [Acadience Reading K-6](#) – Overall proficiency and growth are included as well as individual measure data.
- [Acadience Math K-3](#) – Overall proficiency and growth are included as well as individual measure data.
- [RISE ELA, Math and Science](#) – Overall proficiency is included as well as individual reporting category data for each content area.
  - [Cohort Percent Proficient Over Time](#) – This dashboard looks at proficiency by cohort (i.e., Class of 2025 or Class of 2027) across school years.
  - School Growth – Median Growth Percentiles (MGPs) for schools were calculated by the state and recently released.
- [WIDA Access 2.0](#) – Overall proficiency is included as well as reporting categories and individual domains.
  - [Students Making Adequate Growth](#) – This dashboard is based off of the EL Progress school accountability indicator.
- [6<sup>th</sup> Grade CogAt Universal Screener](#) – This dashboard contains three years of data on students' verbal, quantitative and nonverbal reasoning skills as they leave your K-6 educational program.

(See next page)

## **Other Helpful Data:**

- [2021-22 Stakeholder Input Survey](#) – This is a good source for perception data on academic resources and supports from the perspective of faculty, students and parents.
- [2020-21 USBE School Climate Survey](#) – This is a good source of perception data on school climate and culture.
- [Longitudinal Demographic Data](#) – Based on the Oct. 1 enrollment count, this dashboard will provide assistance with demographic population trends and patterns.
