Anthony Godfrey, Ed.D., Superintendent of Schools
West Jordan, Utah

Intradistrict Communication

DATE: Thursday, December 13, 2023

TO: Elementary Principals
Elementary Teachers

FROM: Carolyn Gough, Administrator of Teaching & Learning
Amanda Bollinger, Associate Administrator, Teaching & Learning
Amy Kinder, K-12 Math Consultant, Teaching & Learning

SUBJECT: Elementary Math Curriculum Reminders

6th-Grade Curriculum Reminder:

We have adopted Illustrative Mathematics housed on the Imagine Learning Platform for the 2024-25 school year. It is the same curriculum content as our current Open Up Resources program, but on a new and improved platform. **All 6th-grade teachers will engage in a full-day professional learning experience on the district professional development day, April 12, 2024.**

K-5 Curriculum Reminder:

Due to the adoption and implementation of Wit & Wisdom, we have postponed the adoption of a new mathematics curriculum and extended our contract with Math Expressions for the 2024-2025 school year. As part of the extension plan, schools will receive consumable math books for students in grades K-2. A downloadable PDF of instructional materials will be made available for grades 3-5. Students will no longer have access to the digital platform; however, teachers will be provided a digital license and will have access to the digital components of Math Expressions. Because our current contract expires we will adopt a new K-5 mathematics curriculum in the 2025-26 school year.

We hope that spreading these changes over two years will make implementation more manageable for teachers.
