DATE: Thursday, March 6, 2025

TO: Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching and Learning
Ben Jameson, Director of Assessment, Research and Accountability

SUBJECT: Elementary Summative Testing Changes for 2024-25

With the change in the ELA core approved by the Utah State Board of Education in recent months, the state's summative assessments will now reflect those changes. The changes to RISE are highlighted below:

RISE:

- The summative RISE ELA assessment and the summative RISE Writing assessment (5th and 8th grades only) have been revised according to the new ELA core. Scores for the summative RISE ELA and summative RISE Writing will not be available until fall 2025. Automatic scoring for both summative assessments will resume in the 2025-26 school year.
- Scoring for RISE Math and Science will still be available after students complete and submit the assessment.
- For RISE ELA and Math, students will see up to one cluster question (see [Feb. 6th JAM](#)). The RISE Math cluster questions will be field test items. The RISE ELA cluster questions will be actual questions that count towards students' scores.
- RISE blueprints, performance level descriptors, and writing rubrics may all be found on the [RISE Portal](#) under the [Resources](#) tile.

Please see the attached RISE updates document released by USBE for more information.

For questions about these changes, please contact Ben Jameson in Assessment, Research & Accountability.
