## SAGE Benchmarks

No testing window; always available

SAGE benchmark tests allow teachers to give brief (15-30 min) online assessments for one reporting category or standard. These tests are designed to be used formatively. They are fixed-form tests, not adaptive. The questions are drawn from the SAGE Interim item bank. Student scores *and* responses will both be visible in teacher reports. The scores and reports will be accessed via AIR Ways Reporting, a new reporting tool, instead of via ORS. The link to Air Ways is next to ORS on the SAGE portal landing page:
