Re: End of Year SCRAM Detail Report

TIME SENSITIVE
PLEASE READ & RESPOND
IMMEDIATELY!

FUNDING IMPLICATIONS

Current environmental conditions and school dismissal have made it necessary to send the End of Year SCRAM Memo, as well as the SCRAM reports for each school, to everyone electronically. All providers will receive a copy of this memo to review for year-end SCRAM procedures. Please read it carefully as some items have been modified. Once you have read through the memo, see the box at the end of the next page for further instructions (some pertinent only to this school year) on returning the reports and corrections. The SCRAM report for each school will be sent to the team leader for each school via Move-It. Use the process you already have in place for your school teams communication to share the report and make the corrections necessary for errors that may be on the report.

Please work together as a team and only return one copy of the report with all corrections for each school.

We are fast approaching our last SCRAM count deadline. It is important that this information be as accurate and current as possible. A year-end final SCRAM report that reflects the SCRAM/IEP Services that have been received from your school to date has been sent to resource and self-contained support class (cluster) team leaders.

Special Education generates funds from this count by *student days in membership* (i.e., how many days they were entered in your program). The *resource or self-contained support class (cluster) report* should list **all current students**, including primary Guidance and primary Speech-Language students. Please check each student for the following information:

- Check that **all students** served in your programs are listed on the report.
- Check that names, SCRAM entry dates, exit dates (if applicable), SCRAM serving school, disability codes, environment codes, regular percents and service patterns are correct and identify the provider of each service listed. Service minutes should be listed as **weekly**, not monthly.
- Be sure that entry and exit dates reflect *all* days that the student received services. ***If there is a gap in service dates, we lose days of membership, which directly impacts funding.***
- Keep in mind that students who exited to regular placement, but are still active in your school will still appear on the report because they received services at some point during the year. As long as there is an exit date in the “SCRAM Exit” column and an “A” in the “Exit Code” column, they are considered exited and a duplicate exit scam does not need to be submitted. They are not included in your counts.
- Students who will continue in the **same school** (advance from grade to grade) or who will move to Kindergarten, 7th or 10th grade in their **boundary school or a school within Jordan District** will automatically roll-over for the start of the new school year. It is **not necessary** to submit an exit SCRAM for these students.
- Current self-contained support class (cluster) students will be rolled forward to the school they have been assigned to attend. It is **not necessary** to submit an exit SCRAM for these students (permit codes were entered by the placement specialist/special education department).
- For students who will continue past the 12th grade (i.e. students going on to South Valley and/or Kauri Sue Hamilton School), the school registrar must flag the student as a **“Retained Senior”** in the Graduation/Diploma status field. An exit scam **does not** need to be submitted for these students.

- **An exit SCRAM must be submitted for any student that has or will age-out or graduate and/or will *not* be returning to a Jordan District school at the beginning of the next school year.**
- Be sure to use the appropriate exit codes and dates for any student who has exited the school during the school year. ***If they are not exited appropriately, we will lose days of membership, which directly impacts funding.*** Note that the SCRAM exit date and the school exit date must be the same date.
- Remember that any changes must be documented on the IEP in Goalview as well as changing the SCRAM document. If there are any changes to SCRAM information, ***submit an updated / corrected SCRAM*** no later than the date listed below.
- Changes written directly on the printout report without an accompanying SCRAM document ***will not be accepted*** as it leads to data entry confusion and may result in the student's file being out of compliance.
- Please take note of the date that the report was printed (top right corner) and was current with everything received as of the print date. If SCRAM documents were received after the print date, they will not appear on the report.
- Please do not send scrams for students for next school year. These should be sent with the SCRAM report that is sent at the beginning of each school year. If received, they will be returned for you to keep track of until the beginning of the year.

All SCRAM printouts and SCRAM document changes must be received by the
Special Education Office **no later than**
Monday, May 4, 2020

SLPs, Guidance Specialists and other providers as needed should work with special education teams at each of their assigned schools to check and complete the requested information. Since ***one copy*** is being sent per ***“team”*** (i.e., resource **and** cluster), it is critical that the list be checked with other team members within your school. ***Each team member must review and initial the original report before returning it to the Special Education Department. Once you have all reviewed the report, the team leader for each school should ensure that the corrections are all compiled on the one original report and submitted together with the corresponding scram corrections. Please do not send multiple copies of the report back.***

Submit all SCRAM changes and/or corrections AND the signed current report to Amanda Hamblin through District mail at the District Office. All completed reports and documents must be received by the Special Education Office by the end of the day on the specified due date.

If you have questions, please contact the Teacher Specialist assigned to your school or Amanda Hamblin at (801) 567-8176 or amanda.hamblin@jordandistrict.org.

Please know that your assistance in completing this information accurately is critical, as it directly impacts Special Education funding!

As stated above, and in the email sent to all service providers on 3/23/20 re: submitting SCRAMs for the time being, you are welcome to return your report and SCRAMs through district mail if you wish by either going to your home school or the school closest to your home and sending them to Amanda Hamblin at the District Office.

If you wish to send them electronically, that is also still an option. I realize that some schools have several SCRAM documents to send in when it comes time for reporting, so you will have to decide what works best for you and your situation as a team. Either way, please have the original report and corrections turned in by

Monday, May 4, 2020

Also, because of the current predicament there is not a feasible way for each team member to sign the report this year. Please be sure that you are seeing the report and contact your team leader from your school if it is not made available to you.

As a reminder:

DO send year-end exit scrams for any student who is not returning to Jordan District in the fall including:

(1) graduating seniors, (2) students going to Charter/Private Schools and (3) students moving from district boundaries.

DO NOT send year-end exit scrams for any student who is: (1) leaving your school, but attending a different school in the Jordan District, (2) students moving on to Kindergarten, 7th grade, 10th grade or one of our special schools as a retained senior, (3) students being moved to a self-contained support classroom in a different school within Jordan District.

Thank you for your patience and willingness to be flexible during this time of uncertainty we are currently facing. You are all doing a fantastic job!
