

Daybreak Elementary's **MATH TOURNAMENT**

For South Jordan, Riverton, Herriman, West Jordan,
Bluffdale and Copperton

Some Questions you might have about the Tournament

Are Charter and Private schools allowed?

Yes. The tournament agreement is for a geographical area, not a specific type of school. Efforts are made to invite all the schools within that geographic area. All are welcome as long as they follow the rules established by MOEMS.

Can my school bring all the teams they want?

Depends on how many you want. We have limited space and we must consider the time needed to grade and record scores. While interest varies from year to year, we want to allow as many schools to participate as possible. Teams will be accepted depending on space available. Please request as many teams as you want to send, but have a plan in place to qualify only a limited number of teams to send if necessary.

There was an entry fee in the past. Why not this year?

The entry fee in the past was used to cover the expenses incurred to host the tournament (secure the rights to host, awards, copies, and adult lunches). Jordan School District's Gifted and Talented Department is now sponsoring the event.

Is this a Math Olympiad?

No. The Tournament questions come from MOEMS – Math Olympiad for Elementary and Middle Schools, but this is an end of year tournament. The actual Math Olympiad is a separate program.

How do I prepare for the tournament?

You will receive tournament problems from 2 previous years with the final registration materials in February. Use these to practice for the tournament. Learning problem solving strategies also helps.
