Assistant Principals
Panorama Survey Coordinators

FROM: Michael Anderson, Associate Superintendent
Travis Hamblin, Director of Student Services

SUBJECT: ****NEW**** Enhanced Survey Reporting – Panorama Student Feedback Surveys

Enhanced Survey Reporting (ESR) is Panorama's updated survey reporting experience. It gives schools faster, deeper insights into student feedback to support students more quickly, celebrate growth, and make confident, data-informed decisions.

ESR is built to help school teams move from data to action with greater ease. Instead of spending time piecing together results, ESR brings everything into one place so schools can focus on planning and support. With ESR, schools can:

- **Explore results across students in a unified view** to spot patterns and differences in how groups experience school.
- **Track changes and progress over time with refreshed benchmarks** to measure the impact of initiatives and adjust strategies as needed.
- **Connect survey data directly to strategic goals** to ensure every planning conversation is grounded in what matters most for students.

You may access deeper information, the guide book, and a video overview [here](#).

As a reminder:

- The Winter student feedback survey window (currently open) closes Friday, February 27, 2026.
- The Spring student feedback survey window is April 20-May 15, 2026.
