

How to Download a Video

When you export a video from School Cameras, select the **SECOND** option to export in **Media Player Format**. It should export as an **AVI** file.

The screenshot shows the 'Export' dialog box with the following details:

- Export names:** A text input field.
- Item table:**

Item	Start time	End time
[Redacted]	1:49:29 PM	1:49:33 PM
- Export Destination:** A text input field with a checkmark and a 'Privacy mask...' button.
- Choose the export format:**
 - XProtect format
 - Media player format
- Media player format options:**
 - Select content: Video and Audio
 - Select format: AVI format
 - Codec: Intel IVUV codec
 - Include timestamps
 - Include frame info
 - Video texts...
 - Still images
- Summary:** Start time: 1:49:29 PM, End time: 1:49:33 PM, Duration: 0:00:03, Estimated size: 86.25 MB
- Buttons:** Help, Start Export, Cancel
