Travis Hamblin, Director of Student Services

SUBJECT: Intervention Plans in Panorama: Communicating with Families

As we strive to increase trust and further deepen MTSS within your school, communication with a student's respective parent/guardian is critical. Schools may keep parents/guardians informed about their student's intervention plan and progress by generating a secure link directly from a student's profile in Panorama's Student Success.

Any educator with access to a student's intervention plan may share the plan by generating a secure link that parents/guardians may access for 45 days.

Instructions are found in Panorama Academy or by using this [link](#). Educators may select from a list of pre-populated guardian emails or create a custom message.

Parents/guardians will be able to view intervention plan details, current or updated progress notes and strategies, and frequently asked questions about intervention plans.
