

We are looking forward to our next JELL sessions. Please note that there have been changes to the original schedule. If your teachers have already requested substitutes, please ask them to update their request to meet the dates below.

Based on feedback, we have extended the JELL Sessions to a full day. The morning will focus on components from the JELL Framework, and the afternoon will be a guided planning time for you and your leadership team. Each school has been assigned a Teaching & Learning (T&L) Consultant as a District partner. Your District partner will join your teams during the JELL Sessions and will visit your leadership teams and/or PLCs on a regular basis.

Along with the February JELL Sessions, we are offering an optional half-day workshop for administrators. “Ensuring your PLCs Improve Teaching & Learning.”
