---

CSTAG training consists of two (2) training levels, and both levels must be completed by all administrators and threat assessment team members. CSTAG Level 2 training is for all who have completed the Level 1 training (the web-based training from Navigate360). Level 2 training builds upon your knowledge of threat assessment by providing practical application and implementation of the CSTAG process in your school.

New Administrators and Administrative Interns are encouraged to attend.

CSTAG Level 1 is web-based through Navigate 360 and the training costs $100 per person. A request for reimbursement will be sent to the school after the staff member has been added.
