

## Imagine Learning

1. **Overview:** Imagine Learning is a language and literacy software program that works to close the achievement gap at an accelerated rate by automatically creating a unique curriculum for each student based on his or her needs. Through Imagine Learning, students receive systematic and explicit instruction in the five key areas of literacy as outlined by the National Reading Panel: phonics, phonemic awareness, fluency, vocabulary, and comprehension. In addition to instruction in these five areas, Imagine Learning also provides English language instruction, building skills in listening and speaking. Students also gain test-taking skills through regular use of the program. The program's high-quality art, music, videos, and motivation elements make it highly engaging and effective for all students.
