

LEA Training Series

Topic: Special Education Resources from Birth to 22

This information will help administrators understand some of the resources related to students with special needs, available to their school personnel, as well as families in their community.

Date: Wednesday, March 16, 2016

Location: District Office Building, Room 129
7387 South Campus View Drive

Times: 9:00 AM – 11:00 AM OR 1:00 PM – 3:00 PM

Who should attend: Elementary and Secondary Administrators

Questions that will be answered:

- What services are available to parents and children with documented or suspected special needs starting from birth through age 5?
 - What data is available to elementary teachers and resource teachers to help them understand what the student's needs are as they transition to Kindergarten?
 - What resources are available to parents to help their children with early intervention of a suspected disability?
- What supports and resources are available for students who have experienced a traumatic brain injury and how do I access these resources before the student returns to school?
- What supports and resources are available for students in need of supplemental devices for reading, writing, or speaking to help them access their general education curriculum?
 - What is available for student's that could benefit from a system that reads their assignments, books, and web information aloud for them?
 - What is Google ReadWrite and how can my students with disabilities access it?
- What's new and innovative to support my students with disabilities as they transition to life as an adult?
 - How do I help my special education team and parents understand and develop appropriate career and college plans for students with special needs?
 - What resources are available for schools and families through state and local agencies?
