From: Carolyn Gough, Administrator of Teaching & Learning
Amanda Bollinger, Associate Administrator, Teaching & Learning
Jared Covili, Digital Teaching & Learning Administrator

SUBJECT: LanSchool Classroom Management Software Extension

In cooperation with the JSD Purchasing Department, Teaching and Learning has procured an extension for LanSchool classroom management software for all current subscribers through the end of the school year. No new schools are permitted to purchase LanSchool software during this school year, but all currently subscribing schools will be able to extend their current LanSchool contracts through June 30, 2025. Please reach out to Tonya Hodges in Purchasing for more information about extending your current LanSchool contract.

Teaching and Learning will be conducting a new RFP (Request for Proposal) in Spring 2026 to allow all classroom management software vendors to participate in the process for selecting a district-wide solution. This is necessary to ensure that classroom management software works both in classrooms and computer labs. Once the RFP process concludes we plan to have a solution that will work on all computers throughout the schools.
