

Intradistrict Communication

DATE: Thursday, March 17, 2022

TO: Elementary School Administrators

FROM: Carolyn Gough, Administrator of Teaching & Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: MOY Acadience Math Results

The MOY Acadience Math results are now available in Tableau viewer accounts. Elementary school administrators may access the dashboards [here](#). Results are available at both the district and school level for both composite scores and measure scores. Composite proficiency and growth are also available. School administrators may also filter the data by student groups (economically disadvantaged, EL, race/ethnicity, and students with a disability). Finally, individual student and teacher data are available for both BOY and MOY.

Here is an overview of the baseline assessment results for the district:

Grade	BOY % At or Above Benchmark	MOY % At or Above Benchmark	MOY % Making Typical or Better Growth
Kindergarten	61.3%	46.9%	35.7%
First Grade	49.6%	47.2%	55.2%
Second Grade	59.7%	50%	48.5%
Third Grade	49.1%	52.3%	57.5%

Please contact Ben Jameson in Evaluation, Research & Accountability with questions about these dashboards or Shannon Johnson with questions about the Acadience Math assessment.
