SUBJECT: Dynamic Learning Maps (DLM) Training

Dynamic Learning Maps (DLM) is the alternative assessment required for students who are participating in the Essential Elements curriculum. It is a requirement that all new teachers in our district who will be administering this assessment need to be trained. This training will be held on **Friday, January 23, 2026, from 7:30 to 10:30 am via Zoom**. Please sign up through Canvas. <https://pd.jordan.com> DLM Training for New Teachers.

Rosters from the Canvas course will be used for Elementary teachers to cover any hours outside of their contract. If attendees need class coverage, they should make arrangements with their school team (e.g., use paraeducators).

Please direct any questions or concerns to Jen Birrell for Elementary Teachers and Lucia Evans for Secondary Teachers.
