

Required literacy classes are now available for registration for new teachers and teachers moving to a new grade level.

If a teacher is moving grade levels and has already taken any of the trainings, they DO NOT need to take them again. If a teacher has completed Wit & Wisdom training for any grade level, they do not need to repeat the training.

To register for classes go to <https://pd.jordandistrict.org/>. Classes can be found by searching for the class titles or clicking on the direct links below. Please be sure that all new teachers are aware of the different trainings that they will need for their grade level and the dates that they are being offered. These are currently the only offerings for these classes this year. New teachers should sign up for one date for each training listed under the grade level they will be teaching. In-service rate will be paid for Heggerty and MSRC classes taken outside of contracted hours. Substitutes will be provided for all classes taught during contracted hours. A stipend of \$600.00 will be paid to teachers for the completion of the in-person and online book work for LETRS training.

Training for Really Great Reading is not listed because teachers have been emailed a link and that training is completed online. A stipend \$300.00 will be provided upon completion of Really Great Reading training.

If you have any questions regarding classes or the registration process, please contact:
