

Intradistrict Communication

DATE: Thursday, September 9, 2021

TO: All Elementary and Middle School Administrators

FROM: Shelley Nordick, Ph.D., Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: Opportunity to Learn Survey Results

As part of RISE and Utah Aspire Plus summative testing for grades 3-10, students participated in an Opportunity to Learn (OTL) survey from USBE. The purpose of the survey was to add context around how shifting learning environments affected students' achievement on the summative assessments.

The OTL questions used on the survey are attached with this memo. A dashboard that shows the results from this survey for the district and individual schools may be found [here](#), including OTL responses tied to math and reading proficiency level. Additional information and data dashboards will be added in the future.

If you have questions about the survey or the OTL dashboards, please contact Brooke Anderson in Evaluation, Research & Accountability.
