Automated External Defibrillator (AED) Overview Video 4:27 minutes

An AED is used to treat victims who experience “Sudden Cardiac Arrest”. It is only to be applied to unconscious victims who are without pulse, signs of circulation, and normal breathing. Anyone can, at their discretion, provide voluntary assistance to victims of medical emergencies. This video provides a brief overview of the use of an AED

Child Sexual Abuse Prevention Training Videos -- 40 - 55 minutes

All school personnel are required to participate in ongoing child sexual abuse prevention training approved by the Utah State Board of Education (USBE). JSD employees can choose between two programs to receive the training. If you viewed either of the programs between January 2017 and June 2017, you will acknowledge completing the child abuse training and will not need to view either video. If you are new to JSD, or if you have not completed one of the training programs, select one of the programs and view the video(s).

- Think First & Stay Safe -- Child Lures Prevention Training. (Includes two videos). Part 1 includes definitions, statistics specific to Utah, and Utah reporting requirements. Part 2 covers how educators can help prevent child sexual abuse and includes 10 "Child Lures."
