This shows that the student is active at your school.

This is general Skyward information entered by the school secretary. Entry and withdrawal dates from the school, grade, gender and race.

ALL SCRAM SERVICES ARE ENTERED WITH AN ENTRY DATE AND EXITED WITH AN EXIT DATE AND CODE.  
The Entry Date is either the first day of school OR the first day the services listed on the SCRAM were provided. If the services are updated or changed during the year, they must be re-entered with a new entry date on a new Scram.  
These dates will be reflected here throughout the year as services change and IEPs are held.

INFORMATION FROM SCRAM DOCUMENT

This is where the services from last year rolled over to this year. As long as nothing has changed, a new SCRAM does not need to be submitted. If any changes are needed, submit a new SCRAM

These three entries are from the previous year, including ENTRY and EXIT dates for each time the student's services changed. You will see this on your reports as the year goes on and students change services.

ALL SCRAM SERVICES ARE ENTERED WITH AN ENTRY DATE AND CODE. The Entry Date is either the first day of school OR the first day the services listed on the SCRAM were provided. If the services are updated or changed during the year, they must be re-entered with a new entry date on a new SCRAM report. These dates are the reflected here throughout the year as services change and IEPs are held.

The entry from 9/29/12-6/30/12 does NOT have an exit code because it was automatically rolled at the end of the year.

The exit date for this student is listed, as well as the exit code. Although a new SCRAM was not needed or submitted, the student will continue to appear for the services received at some point during the year. Another exit SCRAM does not need to be submitted if the information listed is correct.
