Dr. Johnathan Plucker

Keynote Speaker

Julian C Stanley Professor of Talent Development, School of Education, John Hopkins University; President of the National Association for Gifted Children

Addressing Excellence Gaps: Promoting High Achievement in the 21st Century

The economy and culture of the 21st century has a tremendous need for talent. Whether one works in manufacturing, government, education, or the service industry, there is always a shortage of talented people. A major cause of this shortage is the excellence gap – the achievement gap at the high end of student learning. Evidence suggests excellence gaps are growing, yet research has also identified possible strategies for reversing this trend.

There is NO COST for attendance, but registration is required.
Space is limited to the first 140 registrants.
