

Skyward Quick Tips for Admins

Looking to navigate Skyward like a pro? Check out the following videos or tutorials for time-saving tips gathered specifically for Administrators!

Dashboards and Widgets

- ✓ Not just for Admins – Share with your teachers!
- ✓ Customize your dashboard/home page to show different widgets for quick access.

Student Locator

- ✓ Quickly find students with this easy to access tool!
- ✓ Enable it through widgets for immediate access on your dashboard!

Teacher Tracker

- ✓ Access grading charts and data at your fingertips!
- ✓ See grading trends throughout your school.

Time Off Calendar

- ✓ Track time off for yourself and your employees.
- ✓ Unapproved requests show up **red** – approved time off is in **blue**.

Student Browse

- ✓ Simple and quick way to run a list of students that meet certain criteria by selecting different filters and/or views.

Favorites

- ✓ Access different areas within Skyward Student quickly by selecting the link in your favorites widget on the home screen, or through shortcut keys.
- ✓ Data Mining reports can be identified as a favorite for ease of running most-used reports.

Notifications

- ✓ Easily identify forms or tasks to complete.

Message Center

- ✓ Post messages to Family Access and send emails, all from one place.

Address Labels

- ✓ Print address labels quickly!
- ✓ Narrow down recipients using easy-to-build processing lists!
