---

The 2023 Spring survey will open on Wednesday, April 12, 2023 (next Wednesday) and remain open until Friday, May 19, 2023. Data is a powerful tool for intervention, support, and change. The SEL survey data provides you with formative norm-referenced data that can assist you in providing direct interventions and guidance for students and your school culture.

The following information will assist you in administering the survey:

- None of the questions will change from previous SEL Surveys
- During the Survey window you will receive weekly reminders and links to tools and information from Panorama
- You will be able to [track response rates](#) throughout the survey window
- Results for the SEL survey will be compiled and released to you on May 26<sup>th</sup>.
- Schools should communicate with parents/patrons and staff about the administration of the survey.
  - It is optional for parents and students and must never be a part of any academic grade or qualification for participation.
- **Beginning April 12 Student surveys will be available for students in grades 3-12 until Friday, May 19th.** Students can access their surveys by visiting [surveys.panoramaed.com/utahjordan](https://surveys.panoramaed.com/utahjordan) and entering their student ID number as their access code.
