

State STEM Institute for Administrators

I am super excited to announce that [applications for the 2018/19 STEM Institute for administrators](#) are now open! These applications will be **due on August 17**, so please complete this 5-10 minute application at your earliest convenience!

The STEM Institute brings building administrators from across the state together to learn from and with one another about best practices in STEM. Participants are committing to attend all three days and to participate in intersession work which may consist of classroom observations and reflection. While there is no fee for the institute, lodging, mileage, and meals other than lunch will be the responsibility of the individual or their LEA.

Each of the three-day institutes will be held at the following locations and dates. You'll have your choice of which of the three locations to participate in:

◆ Northern Utah (Weber area)

Session 1: 10/2/18 Weber School District Office
Session 2: 11/06/18 Green Acres Elementary
Session 3: 2/13/19 Weber Innovation Center

◆ Central Utah (Alpine area)

Session 1: 10/29/18 Alpine School District Office
Session 2: 11/15/18 Saratoga Shores
Session 3: 2/26/19 Alpine School District Office

◆ Southern Utah (Iron County area)

Session 1: 10/19/18 Iron County School District Office
Session 2: 11/16/18 North Elementary School
Session 3: 2/15/19 Iron County School District Office

Attendees will be engaged in defining STEM, seeing instructional best practices, networking, improving STEM-based outcomes and increasing your awareness of available resources. Staff members from the USBE STEM team will be partnering with administrative leads from each region in facilitating each day of the Institute, along with engagement in a regional PLC.

Please don't hesitate to reach out to Nathan Auck at Nathan.Auck@schools.utah.gov if you have any questions or concerns that you would like to discuss.

Best Wishes,

Jane Harward
STEM Administrator
