SUBJECT: Student Data Privacy Approved Apps and Programs

A list of apps and programs that have been reviewed for student data privacy and curricular use has been published online. This searchable list contains apps that have been approved for use as well as those that have been reviewed and denied. This list will show the grade levels for which the app has been approved and whether or not parent consent will be required for the app's use. Any app that has an approval status of 'Approved for Use' may be used by schools.

The list may be found on the Evaluation, Research & Accountability website:
<https://assessments.jordandistrict.org/student-data-privacy-approval-requests/>

Or educators may go directly to Jordan School District's Public Library on LearnPlatform:
<https://jordandistrict.app.learnplatform.com/new/public/tools>

As we are constantly reviewing apps and programs, this list will be updated regularly.

Please contact the district's Student Data Privacy Managers:
