SUBJECT: TSI/ATSI Workshops and Funding

School improvement planning workshops for schools designated for targeted support and improvement (TSI) or additional targeted support and improvement (ATSI) will once again be offered during the 2025-26 school year. During the workshops, schools will update their TSI/ATSI datasets, celebrate successful initiatives, update their priority problems of practice and root causes, and determine the action steps they need to take as part of their TSI/ATSI school improvement plans for the next couple of years.

For schools that choose to participate in the process and have an active TSI/ATSI school improvement plan already in place, ***funding will be allocated to help implement that plan*** over the next 1-2 years.
