

Intradistrict Communication

DATE: Thursday, February 3, 2022

TO: All School Administrators

FROM: Carolyn Gough, Administrator of Teaching & Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: 2022 Educator Engagement Survey Administration

USBE board rule [R277-325](#) requires that school districts administer the Educator Engagement Survey every other year opposite the USBE School Climate Survey (last administered in the spring of 2020-21).

The survey will be distributed by Evaluation, Research & Accountability to all licensed school-based educators (with the exception of administrators) in elementary, middle and high schools. The survey opens Monday, February 14th and closes Sunday, March 13th. USBE anticipates that the survey will take educators about 30 minutes to complete. USBE hopes to gather information about educator's engagement in education and their perspectives related to the quality of their job experiences. The survey is confidential and the results will be reported in the aggregate.

School administrators don't need to do anything to distribute the survey, but they are encouraged to notify their faculty that the survey is coming.

Survey results will be published for each school in Tableau after the survey closes.

If you would like to preview the survey questions, you may do so [here](#) or you may view the pdf copy attached with this JAM memo.

Please contact Ben Jameson in Evaluation, Research & Accountability with questions.
