SUBJECT: Optional Unique & Inspire Professional Development

We are excited to be able to provide two new curricula for our special education teachers this year. Unique provides a convenient, cloud-based platform for educators to deliver differentiated, standards-aligned content enhanced by powerful assessments, data tools, and evidence-based instructional support. Inspire provides a research- and evidence-based intervention curriculum to supplement the core curriculum. There are two optional trainings available on our September 22 Professional Development Day.

- Unique is for all self-contained classrooms (all grade levels)
- Inspire is for elementary resource classrooms (secondary content to come soon).
