

Intradistrict Communication

DATE: Thursday, August 19, 2021

TO: Middle School Administrators
High School Administrators

FROM: Shelley Nordick, Ph.D., Administrator of Teaching and Learning
Ben Jameson, Director of Evaluation, Research and Accountability

SUBJECT: Utah Aspire Plus Scores

Utah Aspire Plus scores are available for math, reading and English. Science scores will not be available until later on this fall. In addition, ACT predicted composite scores will also be available in the fall. In the meantime, a Google Sheet containing the scores we do have for your school will be shared with each administration team.

Any ELA or math teachers whose students took the test last year will also receive their own Google Sheet with just their students' scores.

Tableau dashboards will be made available once we have the science and predicted ACT composite scores.

Please refer to Brooke Anderson in Evaluation, Research & Accountability with questions.
