Request for proposals: sponsored by the USBE

https://utahsystemsconference.org/Proposals.cfm

The Utah Systems Conference is focused on supporting Utah LEAs and schools in exploring the fit of the initiatives within their current work to guide decision-making and assist with the alignment of initiatives to achieve the intended organizational goals.

• The MTSS strand will focus on alignment of evidence-based practices, tiered supports for students and equitable access that integrates academic and behavior systems to positively impact student outcomes.
