

Which one of these employees has the flu?

Every year the flu affects employers and businesses.

We are partnering with Community Nursing Services to provide an on-site flu shot clinic for employees.

- A person can spread the flu 1 day before they feel the symptoms and 5-7 days after becoming sick.
- A flu infected person can infect anyone within 6 feet.
- Flu virus can survive on a surface for up to 48-72 hours.

Protect yourself, your family and your co-workers! Get Vaccinated!

*Partnering with businesses
to immunize employees
against the flu.*
